Subject: PSA Screening Blood Test Coverage

Hi Everyone—

After the recent announcement that Governor Walker has prostate cancer, and his encouragement that men have screening PSA blood tests and associated exams, I began getting questions from members asking why the retiree plan does not cover such a critical, life saving service.

Well—the good news is—**the retiree medical plan does cover a yearly PSA screening blood test and associated exam**, and has for a couple of decades or so.

Please let me know if anyone has questions using my email address below.

Thanks—
